ColumBUS Rack & Roll

- Racks are designed to accomodate two wheeled single seat bicycles.
- Please make sure all loose personal items are removed from bike.

• Wait until the bus has come to a complete stop and bus has been lowered prior to stepping toward bus to load bike.

• Make eye contact with the bus driver to ensure it is safe to approach the bus.

• If you are a first time Rack & Roll user, the driver may instruct you on how to properly and safely secure your bike if needed.

- Pull down the bike rack mounted on the front of the bus by squeezing the handle and lowering the rack.
- Load your bike, using the slots closest to the bus first. Make sure that the handlebars face the curb-side of the bus. For the second bike, the handlebars should face the street side of the bus.
- To secure your bike in the rack, raise the support arm to the top of the FRONT TIRE. After the bicycle is secured, go ahead and board the bus.
- There is no extra fee for using our Rack & Roll service. Children 12 and under may use the rack only when accompanied by an adult.
- Bicycles are not permitted on the bus.

- As you approach your stop, inform the driver you will be unloading your bike. Please use the front door to exit the bus if you have a bike in the rack.
- Unload your bike and stay near the curbside of the bus, never the traffic side.
- If no one is waiting to load a bike or there are no other bikes in the rack, fold the rack up toward the bus and it will lock in place automatically.
- Be aware of vehicle traffic when loading or unloading your bicycle.
- Be sure to load and unload your bicycle towards the curb.
- Avoid kneeling or squatting out of the bus drivers line of vision. When loading or unloading bike, make eye contact with the driver.
- ColumBUS is not responsible for damage incurred to bicycles on ColumBUS bicycle racks.
