

MEMORANDUM

TO: CAMPO Policy Board and Technical Committee

FROM: Ashley Beckort

DATE: April 21, 2025

RE: *Resolution 2025-06: Changes to CAMPO Bylaws*

CAMPO was established in 2003, with the Policy Board bylaws created soon after. This update is intended to evaluate the bylaws for compliance with current Federal and State standards, as well as update them to address the since time-tested and practically applied operation of the Policy Board. This update also includes managing membership and streamlining processes.

Summary of Proposed Changes from previous CAMPO Bylaws:

- Currently, the TIP Amendments and Modification criteria live in the bylaws. The proposal is for these criteria to change and to live in the adopted TIP, consistent with the associated proposed Draft TIP.
- Clarify the intent and procedures of the advisory committees of Technical Committee and Citizens Advisory Committee.
 - Proposal to make the Technical Committee less formal: a quorum and minutes would no longer be required; Technical Committee would remain a standing meeting before each Policy Board Meeting and they would still review items and provide comments (which will be shared at Policy Board meetings); this would no longer be a public meeting (no public has been attending).
 - Proposal to make the Citizens Advisory Committee less formal: instead of a recurring meeting, the committee would provide an advisory role during the Metropolitan Transportation Plan (MTP) update AKA our long-range plan. CAMPO staff would be able to determine if any other plan updates would benefit from the Citizens Advisory Committee review. The committee would no longer be a standing committee, but rather assembled on an as-needed basis and disbanded when the applicable plan is complete.
- Technical Updates:
 - Streamlines formatting and removes duplication.
 - Updates document names and membership titles.
 - Logs bylaw adoption and revision resolutions and summaries (page 2).
 - Provides references for clarity, including references the “Agreement for Cooperative Action between the City of Columbus, Bartholomew County, and the Town of Edinburgh”, adopted 2024 or any such updated agreement (page 6).
 - Updates Policy Board Meeting order of business consistent with current operations (page 8).
 - In 2021, the Policy Board approved a bylaw amendment to add standards for electronic participation at Policy Board meetings. This document clearly combines those standards into the master document (page 8).
 - Codifies MTP, TIP, and UPWP amendments & administrative modifications criteria and procedures consistent with current operations (page 13).

BACKGROUND

Federal Regulations require the establishment of Metropolitan Planning Organizations (MPO) in urban areas where the population exceeds 50,000 people (Title 23 CFR Section 450.310 – Metropolitan planning organization designation and redesignation). Objectives of an MPO is to conduct transportation planning, to encourage and promote the development of transportation systems, to embrace multiple modes of transportation, and to minimize transportation related fuel consumption and air pollution.

The Governor of Indiana designated the Columbus Area Metropolitan Planning Organization (CAMPO) as the MPO for the City of Columbus and Bartholomew County on February 27, 2004. Locally, the Columbus Area Metropolitan Planning Organization fulfills the MPO mission as an intergovernmental transportation policy group that manages the federal funding of transportation projects for the Columbus Urbanized Area and Bartholomew County. The Columbus Area MPO is responsible for ensuring that the transportation planning program in the Urbanized Area incorporates consultation, cooperation, and coordination between the MPO, various civic organizations, and the public.

The Policy Board (PB) consists of elected and non-elected municipal, county and state officials. The Technical Committee (TC) includes federal, state and local planners, engineers, transit operators and other transportation-related professionals. The Citizens Advisory Committee (CAC) is intended to represent the broad cross-section of Columbus and Bartholomew County citizen interests related to transportation throughout the MPO. All MPO decisions are approved by the Policy Board upon the advice of the Technical Committee. The public is actively encouraged to attend MPO meetings and to be involved in the transportation planning process.

5.1 MTP, TIP, and UPWP Amendments & Administrative Modifications

- A. FHWA Criteria:** Federal Highway Administration (FHWA) defines changes to a long-range metropolitan transportation plan or Transportation Improvement Program (TIP) as Amendments or Administrative Modifications (23 CFR 450.104). Administrative Modifications are minor changes that do not require public review and comment. Amendments are major changes and do require public review and comment opportunity.
- B. CAMPO Criteria:** Each MPO is permitted to set their standards for how changes are processed. The MPO determines what is considered an Amendment to be reviewed by the Policy Board, and what is considered an Administrative Modification to be processed by MPO staff. Once a change is approved by the MPO, it is then sent to INDOT, FHWA, and FTA (as appropriate) for processing. Let it be clear that INDOT and FHWA have defined their own thresholds for Amendments depending on the document being updated. The following are CAMPOs criteria for MPO Amendments and Administrative Modifications:
 - 1. Revisions to the Metropolitan Transportation Plan (MTP): Revisions to an approved MTP require an amendment. After receiving input from the Technical Committee, the Policy Board may vote on the proposed MTP amendment. Amendments shall become effective upon a positive vote of a majority of the entire voting membership of the Policy Board (4 votes). Said revisions process shall also be consistent with the provisions of the Public Participation Plan in effect.
 - 2. Revisions to the Transportation Improvement Program (TIP): Revisions to an approved TIP shall follow procedures noted in said approved TIP. Said revisions process shall also be consistent with the provisions of the Public Participation Plan in effect.
 - 3. Revisions to the Unified Planning Work Program (UPWP): Revisions to an approved UPWP shall be considered amendments (requiring Policy Board review and approval), unless one of the following exceptions applies (in which case they are administrative modifications):
 - a. Errors/Formatting: Correcting obvious minor data entry errors or re-formatting to improve clarity.
 - b. Description: Changing or clarifying elements of a project description without modifying the original project intent.
 - c. Required Edits: If noted on the resolution during UPWP approval, CAMPO staff may make required edits by INDOT, FHWA, or FTA and notify the Policy Board of said changes.
- C. Administrative Modification Procedures:** In the case of administrative modifications, unless otherwise noted, the following procedures shall be followed:
 - 1. Notice: The staff shall create a memo or other documentation to clearly describe the specific change.
 - 2. Notification Process: This document will be sent to Policy Board members for information only. Changes to the appropriate document will be made by staff. These memos and corresponding document changes will be provided to the public at the next Policy Board meeting and/or posted on the CAMPO website as appropriate.
